

BRIEF EXPERT REPORT / SHIELDING ATTENUATION

Material under test

Metallized polyamide netting **HNG80**

Herewith I guarantee the technical accuracy and correctness of the measurement and the results.

Subject

Measurement of the shielding attenuation of electromagnetic waves from **30 MHz to 3 GHz**.

Manager and owner, Danner Christian

Regulations

According to **ASTM-4935-99**. Measurement with non directed (radial) polarisation.

Date of measurement

15th of february 2011
